EXPERIENCE

Truweight Wellness, Bengaluru - *Frontend Developer*

Aug 2017 - Present

Creating Awesome Landing pages & web pages with creativity, which drives more customers to convert and become potential leads. Using AJAX, JQuery, Javascript, Bootstrap, HTML5, CSS, which help me create beautiful responsive websites, also working along with the SEO team, just to learn how Google wants our sites to be.

Oracle India, Bengaluru - *Business Analyst*

Aug 2016 - Aug 2017

This job prepared me and taught me how to handle tasks & responsibilities, other than teaching me about the actual project. I joined as a fresher, evolved & emerged a responsible employee. I was Jumped to a higher level of support in 3 months internally, and later became SME for one of our internal projects at Oracle (SI-SE), I also used to train our new joiners for this platform, which led me to become one of the key employees in our team.
